

# Report an incident

Reducing the number of steps required to complete a task will ensure that drivers aren't distracted while behind the wheel.

## Sample flow

User action	Where action is performed	Step count after action
The user is driving. Along their way, they notice an incident that they decide to report, so they tap the Report FAB.		1
A grid of possible actions opens, allowing the user to quickly tap the Incident icon.		2
The grid is dismissed and a toast appears on the screen notifying the user that the incident was reported.		1 (new task)
